DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McMahan (US Patent 2,438,673).

A body of longitudinal axis is generally shown in Fig. 1, the duct is met by opening 16, the hole opening arms are met by 30 which is distributed symmetrically in the body and the face of each arm is met by the sealing strips 60 which is subject to the drilling fluid pressure for expanding the cutting elements 30.

Allowable Subject Matter

3. Claims 3-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
